RapidEye Invites You to 'Sample the World' 16 Demonstration Products Now Available

RapidEye has released a selection of sixteen demonstration products generated by the RapidEye system. The samples of the RapidEye Standard Image Products show a variety of areas around the world including agricultural, forestry and urban areas.

"Potential customers can test RapidEye's products covering an area they are familiar with, and since we are offering these test samples at no charge, there is no financial risk involved," said Wolfgang Biedermann, CEO of RapidEye. "We also want to make sure that there are a large number of samples available to show the consistency and quality of our products."

A list of all RapidEye demonstration products has been made available at www.rapideye.de/demo-products.de If you are interested in one or more demonstration products, please email demoproducts@rapideye.de and you will be provided with the access immediately.

If you would like to acquire images of your region or an area you are interested in, you will have the opportunity to choose from the expanding collection of imagery in the RapidEye Library by contacting a RapidEye distributor or RapidEye directly. The RapidEye Library is continuously growing, with new images being downloaded from RapidEye's satellites every day. For more information please visit the RapidEye website at www.rapideye.de, or email an inquiry to sales@rapideye.de

RapidEye Partners with MDA Federal

RapidEye has entered into a strategic partnership agreement with Washington, DC area based MDA Federal (formerly Earth Satellite Corporation – EarthSat) to be one of their distributors in the United States.

"Since MDA in Vancouver was our prime contractor for our space and ground segment, it was only natural that MDA Federal in the United States would be part of our distributor network," commented Wolfgang Biedermann, CEO of RapidEye.

RapidEye Sensors Now Supported by PCI Geomatics Software

A new software update from PCI Geomatics has been made available making PCI the first geo-imaging software provider to specifically support RapidEye's level 1B data product. PCI's remote sensing and image processing software Geomatica 10.2.1 is the latest version of the image-centric desktop software, providing users with RapidEye satellite sensor support.

"We are impressed that the PCI software can provide such precise locational accuracy with their software, which is of obvious importance to our customers," commented Dr. Frederik Jung-Rothenhaeusler, RapidEye's Head of Product Development.

For more information about this software upgrade, visit www.pcigeomatics.com

RapidEye at ESRI Earlier this Month The "Superbowl of GIS"

RapidEye exhibited at the world's largest gathering of GIS professionals from July 13-17. The ESRI User Conference drew a crowd of over 10,000 enthusiastic visitors to the San Diego Convention Center.

The week-long GIS conference offered a wide range of networking opportunities for RapidEye. These contacts may result in promising partnerships that will allow us to expand into a greater number of global markets.

For more information about ESRI or their International User Conference, please visit their website at www.esri.com

RapidEye Exhibited at InfoAg 2009 Presenting Precision Ag Solutions

RapidEye's agricultural team exhibited at this year's InfoAg Conference, in Springfield, Illinois from July 14-16. This year, over 628 attendees joined the event. RapidEye was one of the event sponsors, and was given a speaking slot titled "The RapidEye Satellite System: Benefits for Precision Agriculture Through Multi-Temporal Image Acquisition" which was held by RapidEye's own Stefanie Grundner.

For more information about InfoAg, please visit their website at www.infoag.org/

RapidEye to Attend INTERGEO 2009

RapidEye will attend this year's INTERGEO together with their partners Sovzond and BEO in Karlsruhe, Germany.

INTERGEO is the world's largest event and communication platform for geodesy, geoinformation and land management. The event will be held from September 22-24.

Are you interested in meeting our team? Please feel free to make an appointment by emailing sales@rapideye.de. Our Sales Team will be pleased to discuss our range of products and services in more detail, and we cordially invite you to visit our booth, number 4.307 in hall 4.

For more information about INTERGEO, please visit their website at www.intergeo.de/en/englisch

More Than 200 Guests At Our Open Door Day 'RapidEye Summer School' on July 13

Local schools and the general public attended our event called "Five Eyes in Space - RapidEye Summer School" on Monday, July 13. In different "classrooms" our guests learned more about us, our creative innovations and our cultural diversity.

Guided tours to our Satellite Control Center and Operators room were given, where we process and archive the satellite images derived from our satellite system. Besides a general session about RapidEye and an exhibition, we had guest-exhibitors from Jena Optronik, City Marketing Brandenburg, the Orbitall space museum, and the Potsdam Job Alliance.

Jörg Günther from Deutsche Bank directed the awards ceremony representing the initiative 'Germany – Land of Ideas'. Dr. Frederik Jung-Rothenhäusler, member of the RapidEye management team, received the award for RapidEye and presented the first satellite image of Brandenburg to the mayor Dr. Dietlind Tiemann.

Learn more about "Germany – Land of Ideas" and our event by visiting our website at: www.rapideye.de/land-of-ideas.

Upcoming Events

Over the next few months, look for RapidEye at the following tradeshows, conferences and events. If you would like to arrange a meeting, please send an email to sales@rapideye.de

Aug. 31-Sept. 3 SPIE Europe Remote Sensing
Berlin, Germany

Sept. 22-24 INTERGEO 2009 Karlsruhe, Germany

Oct. 15-16 49th European Commodities Exchange
Copenhagen, Denmark
